

Instruction for the preparation of full paper

The *Revista Mexicana de Física (RFM)* will publish a special issue with a number of papers accepted under the anonymous review system. Authors who wish to submit their work to be published in this special issue need to:

-Present their work during the congress in the corresponding category, and submit an original and two hard copies of the full paper in English as well as an electronic copy in a diskette or CD in the registration desk.

-Indicate in a presentation letter their will to submit the paper to be reviewed.

-The maximum length of the paper will be 3 published pages. Then, the length of the manuscript has to be limited within 6 letter size pages, including title; abstract (in English and Spanish); text; figures, graphs, tables and references. The text of the paper should be 12 points fonts, double line space, and 3 cm margins all four sides.
